French painter Geneviève Dolle was the artist for the September showcase at the **Advocate Galleries**. A sumptuous splash of rich colour floral works was on display. If you have been too busy to attend an Advocate Galleries Exhibition in 09, now is your chance to see the best of the best in their **Preview Show for 2010** which runs until January. This independent gallery has had quite a year with sell out shows and a huge amount of Champagne consumed - go along and indulge in a glass before they run out! www.advocategalleries.com

PLANNING A CUTTING GARDEN

Highly inventive antipodean, **Victoria Merrick**, has expanded her popular Lincolnshire-based workshops to London. The first of these was held in the heart of Wimbledon with expert gardener, Rachel Petherham. Other subjects include "Keeping Chickens in the Garden", "How to Drink", "Christmas Wreathmaking" and "How to Cook a Kangaroo" (if you happen to be Sydney in Feb! Let's hope she get's to Wimbledon more often.
